

The Board of Women exists to be a collective voice of women on leadership—serving the whole church through shepherding, service, prayer, and ministry to women.

SHEPHERDING

We serve alongside the Elders and join them in the care and edification of the entire church body. We are members of session committees, interview new church members, provide after-service prayer, and shepherd independent women.

SERVICE

We serve alongside the Deacons and join them in ministering to those who are in need. We are members of all diaconate committees and actively respond to service needs within the church.

MINISTRY TO WOMEN

We serve alongside church staff and lay leaders to provide support to women's ministries and respond to the needs and interests of women. We facilitate fellowship, growth, and service through church-wide events for women.

Prayer: We pray for the church and pray fervently in each pillar of our mission.
