HOW YOU CAN GET INVOLVED

PRAY

- Pray for the children that the GROW centers serve, that they would become whole and healthy adults, with a deep grounding in God's love for them.
- Pray for the teachers, that they would continue to show the love of Christ through best early childhood development practices.
- Pray for Robert and Joyce as they lead the project and raise the funding—for wisdom, strength, and direction.

GIVE

- Give online to help provide classroom materials, adult counseling, food for underserved families, and day-to-day operations of the centers.

GO

- Talk to our Director of Mission, Matt Stone, about the next opportunity to travel.

SEND

- If you are unable to personally GO, contact us about how you can help SEND a future mission team from our church to visit this partner.

Introduction

Lack of education, basic resources, and extreme poverty plague many children and families in the Middle East, leaving them with no safe place to go, no support, and little hope. Based in Lebanon, The Philemon Project welcomes under-served children and families from all ethnicities and religious backgrounds, providing a healthy place for children to explore their world and grow cognitively, physically, socially, and spiritually. Through providing excellent care and holistic nourishment, the GROW Center engages entire families with the gospel of Jesus.

About The Philemon Project

○ Mission and vision

The Philemon project implements their mission through the establishment of GROW centers throughout Beirut. By providing early childhood development, adult mentoring, and food programs to underserved Lebanese, migrant, and refugee children and their families, GROW centers transform lives and communities with the gospel.

○ Partnering to share the good news 2019 – present

We began partnering with the Philemon Project in 2019. In 2022, we sent a team from our church to help expand our partnership.

○ Making a difference

Supporting our partners

Our annual giving supports The Philemon Project's general fund and the GROW Center for early childhood development.
